

EXIDE PAKISTAN LIMITED

CHAIRMAN'S REVIEW

I am pleased to present on behalf of the Board of Directors, un-audited Accounts of the Company for the 1st Quarter ended June 30, 2013.

The Economy

Pakistan's economy grew by 3.5 percent in the year 2012-13 as against target of 4.3 percent and growth of 3.7 percent in the year 2011-12. The set back is due to under performance of agriculture sector on account of 13 percent fall in cotton production compared to last year and below target output of basmati rice. Foreign Direct Investment grew by 130 percent during July – June 2012-13 and stood at US \$ 1.447 billion as against US \$ 0.627 billion in the corresponding period of last year. Current account deficit reduced to US\$ 2.30 billion in July-June 2012-13 compared to US\$ 4.66 billion in the preceding year due to reduction in trade deficit, improvement in home remittances and coalition support fund payment. Very little is left to rejoice over these positives, when the country's foreign exchange reserves and currency are under constant pressure due to continued repayments to the IMF. During Financial Year 2013, the foreign exchange reserves of the country declined by US\$ 4.28 billion and stood at US\$ 11.01 billion owing to a weak external account position coupled with IMF payment of US\$ 2.70 billion. The Pak Rupee depreciated by 5.4 percent against the green-back during Financial Year 2013 and USD/PK Rupee ended the year at 99.66. CPI inflation has reduced to 7.4 percent during 2012-13 as compared to 11.0 percent in the comparable period of last year. It was Pakistan's first year of single digit inflation after Financial Year 2007. Going forward inflation is expected to rise due to the inflationary measures announced in the budget and expected higher Rupee depreciation in Financial Year 2014.

The Industry

Growth of automotive sector in the preceding few years was instrumental in better capacity utilization of the battery industry. During July 2012-June 2013, locally produced cars' sale declined by 24% to 118,830 cars against 157,325 cars sold in corresponding period of the last year, whereas trucks and buses sales declined by 18%. Farm tractors sales grew during the period from July 2012-June 2013 by 848 units. Sales of motor cycles and three wheelers registered decrease of 1 percent from 829,893 units to 820,217 units.

Prices of major raw material of battery, refined and recycled lead increased during the period under review. This coupled with devaluation of Pak Rupee and increase in energy charges had an impact on cost of goods sold.

Your company has been honored with Brand of the Year Award for the consecutive third time in the year 2011.

Sales

Net sales revenue of the Company for the quarter under review was down by 17.6 percent to Rs. 2,631 billion from Rs. 3,193 billion compared to preceding year due to reduced production.

Production

Production activities were seriously affected due to energy crises, law and order situation and labor unrest. Stress on quality control at all stages of production processes was implemented with great vigor for further strengthening quality standards of the products of your Company.

Profitability

Gross profit for the quarter under review declined from Rs. 502.8 million to Rs.306.4 million down by 39.1 percent compared to preceding year due to reduced sales. Operating profit reduced to Rs. 175.9 million from Rs. 331.7 million recorded in same quarter of the last year. Financial charges decreased to Rs. 7.4 million from Rs. 18.6 million due to better management of working capital requirement. Profit before tax for the quarter under review was Rs. 152.6 million as compared to Rs. 281.9 million recorded in first quarter of the last year.

Earnings per share reduced to Rs. 14.48 as compared with Rs. 26.15 recorded in the previous year.

Future Prospects

It is anticipated that indigenous organized battery industry will perform satisfactorily, although the cost pressures will remain on account of Rupee devaluation, rising cost of utilities and other inflationary factors. Your management is determined to avail full benefits of the opportunities by continued focus on quality, productivity, cost control and after sales service to improve its competitiveness.
