### Chairman's Review

I am pleased to present on behalf of the Board of Directors un-audited Accounts of the Company for the 1st quarter ended June 30, 2020.

### The Economy

Pakistan's GDP growth rate declined to 2.6 percent in the year 2019-20 compared to growth of 3.3 percent in the last year and against a target of 3.5 percent. The already subdued economic activity during the quarter under review, became further depressed due to the global outbreak of the Coronavirus pandemic. In order to reduce the adverse economic impact, the government has given Rs.1.2 trillion financial package to support the economic activities in the Country. The State Bank of Pakistan has brought down the policy rate by 6.25 percent to 7 percent to stimulate the economy.

Pakistan's trade deficit narrowed significantly - by 27 per cent to US\$ 23.18 billion in financial year 2019-20 from US \$ 31.8 billion the last year. Reduction in the deficit was primarily due to the suppression in imports from US\$ 54.76 billion to US\$ 44.57 billion (-19% YOY), however, the exports of the country declined by 7% YOY basis to US\$ 21.39 billion from US\$ 22.96 billion last year. Further analysis indicates that if we exclude the impact of pandemic the exports would have depicted a flat growth. Trade deficit goes down by 8 per cent in July 2020 prompted by recovery in exports by 6 percent YOY and marginal decline in imports by 0.7 percent YOY amid ease in global lockdown and picking up new orders from the International market. Current account deficit in FY20 sharply reduced by 78 percent (YOY) to US\$ 2.97 billion which is at 5-years low as compared to US\$ 13.43 in FY19. Improvement in Current account is primarily due to reduced trade deficit coupled with 6.3 percent YOY increase in remittances. Remittances hit record high of US\$ 23.12 billion in FY20 - up by 6.3 per cent - compared to US\$ 21.74 billion in FY19. During July 2020, remittances recorded all-time high of US\$ 2.77 billion compared to US\$ 2.04 billion in the same period last year. We believe that the remittances to remain under pressure during FY21 owing to job losses and expected economic downturn in the Gulf region, however, the incentives provided by the government may limit the downside risk. Inflation rose to 11.1 percent in June-20. Total foreign exchange reserves of the Country amounted to US\$ 18.79 billion as on July 3, 2020.

### The Industry

Fiscal year 2019-20 proved period highly disappointing for the entire auto sector. The sector laggard due to massive decline in sales in FY20 on account of upward price revisions due to currency depreciation. On yearly basis, the sector saw production of tractors plunged by 35 percent, trucks by 51 percent, buses by 42% and jeeps & cars by 55%, LCV 51% and motorcycles by 24%. Sale of cars showed some improvement in July 2020 as the lockdown eased and buyers reappeared.

### Production

Production activities were effectively planned and adjusted to cater to the market demand both in terms of quantity and quality. Stress on quality control at all stages of production process was implemented with great vigour for further strengthening quality standards of the products of your Company. Production was badly effected during the quarter under review because of lockdown.

### Sales

Net sales revenue of the company during the quarter under review decreased by 35 percent to Rs.1.73 billion from Rs.2.68 billion during the same period last year on account of decrease in sale volume of battery Division due to curtailment in sales and production as a result of lockdown. The company was effectively shut for half this quarter because of the government mandated Covid lockdown.

**Profitability** 

Gross profit for the quarter under review decreased to Rs.16.5 million from Rs.203.9 million - down by 92% due to reduced margins on account of higher raw material prices and lesser sale revenue. Gross profit ratio decreased

from 7.61 percent to just 0.95 percent of net sales revenue. Selling and distribution expenses decreased by 54 percent to Rs.122.4 million from 266.4 million. Administration and general expenses decreased by 22.2 per cent to Rs.29.3 million from Rs.37.7 million. Operating loss for the first guarter recorded at Rs.135.2 million compared to loss of Rs100.20 million in the corresponding period of last year. Financial charges decreased by 19 percent to

Rs.70.1 million from Rs.86.7 million on account of reduced borrowings and decreased markup rates. Loss before tax for the period under review was Rs.202.0 million compared to Rs.187.1 million in the corresponding period of

last year.

**Future Prospects** 

It is anticipated that indigenous organized battery industry will face competition due to capacity expansion of existing battery plants and changing market dynamics. The management have suitably adjusted prices in Replacement and Export segments which will improve the performance of the Company in the remaining period of the year. The Company's short-term borrowing has reduced due to reduction in Trade debtors and the general reduction in

mark-up rate will reduce financial charges and improve operating performance.

In order to support the manufacturing sector and minimize the impact of Covid-19 pandemic on economy, the State Bank of Pakistan has taken steps such as reduction in discount rate and introduction of a refinance scheme for payment of wages and salaries. These steps will favorably impact operating performance of the manufacturing

sector.

Your management is determined to avail full benefits of the opportunities by continued focus on quality, productivi

ty, cost control and after sales services to improve its competitiveness.

Acknowledgement

On my behalf and on behalf of the Board of Directors' of your company, I take this opportunity of acknowledging the devoted and sincere services of employees of all cadres of the company. I am also grateful to our bankers, shareholders, M/s Furukawa Battery Company Limited (Japan), vendors, main dealers, retailers and valued
